

GP338
MOTOROLA
TWO-WAY RADIO

GP338 Conventional Portable Radio

The 128-Channel GP338 is essential for growing organizations because of its unique versatility. Whatever your profession, this is the radio that grows with you.

Unsurpassed Audio Quality

- Motorola's special voice compression and expansion technology called X-PAND™ enables crisper, clearer and stronger audio quality, allowing you to keep communicating, even in noisy environment.

Powerful

- Received Signal Strength Indicator displays signal strength in the vicinity where you operate in.
- 14 Character Alpha Numeric Dot Matrix Display allows immediate communication of vital information without wasting time identifying callers. Universally recognizable icons on the radio's large LCD monitor clearly displays its features and commands.
- Name and tone tagging with capability to assign 8 different ringing tones and visual caller ID to 8 specific users/ talkgroups.

Versatile

- Repeater/Talkaround Enable/Disable allows freedom to communicate via a repeater for wide area coverage; or bypass a repeater and talk directly to another unit for easy local unit-to-unit communications.
- Lightweight Lithium Ion battery option makes the radio one of the lightest in its range.
- Enhanced Signaling features of MDC 1200, Quik Call II and Dual Tone Multiple Frequency (DTMF) Signaling Encode.
- Voice Storage option allows up to 2 minutes of recording.

Compact & Reliable

- Motorola's Accelerated Life Test.

* MIL-STD 810 C, D & E.
